EXPERIENCE

Nupat Technologies, Yaba Lagos — *Intern (Full-stack Developer)*

OCTOBER 2023 - PRESENT

I am currently interning with Nupat Technologies, actively contributing to innovative web development projects. My responsibilities encompass a broad spectrum of technologies including HTML, CSS, Vanilla JavaScript, and React. Notably, I have played a pivotal role in crafting engaging landing pages using React, while also contributing significantly to the development of a cutting-edge Real Estate web application. My dedication to staying abreast of the latest trends and my passion for delivering high-quality solutions drive my contributions to the forefront of innovative web development.

Slingshot Technologies, Obalende Lagos — *Network Engineer*

JANUARY 2014 - DECEMBER 2015

At Slingshot Technologies, I play a dual role in the IPolowo project as both a Network Engineer and Marketer. I lead the design and maintenance of the project's network infrastructure while also spearheading strategic marketing initiatives to increase brand visibility and drive user engagement. My ability to integrate technical expertise with marketing strategies has been crucial in achieving project success and fostering growth within the organization.

Angel Gabriel Information System, Bamgbose Lagos — *Photographer & Videographer*

OCTOBER 2013 - SEPTEMBER 2016

At Angel Gabriel Information System, I wear multiple hats as a graphic designer, photographer, and videographer. I craft visually compelling designs, capture stunning imagery, and produce dynamic video content to enhance various projects. My diverse skill set contributes to the overall success of initiatives by delivering creative solutions across multiple mediums.
